Bass

Audience

Band Setup:

ReTooLed uses In Ear Monitoring

We feed the following into our IEM Rack:

- Bass Amp DI
- Guitar DI (rca)
- Shure Wireless Mic DI
- Kick Drum Mic
- Overhead Mic
- E Drum output

These go into a splitter.:

One set of signals goes to Front of house

One set of signals goes to rack mixer which feeds IEM's

We will supply a labeled XLR Snake to Front of House with following outputs:

- Bass
- Vocals
- Kick
- Overhead
- E Drums

(Use what you need)

*****GUITAR has no XLR DI and needs to be mic'ed*****
